

Help your child to achieve the 'magic score'™ which will result in them being allocated a place at their chosen selective school! In today's increasingly competitive society, preparation for the 11+ has become incredibly tough, whichever education authority area you live in. For your child, it involves studying many concepts that they will not have faced before. Many of the questions are extremely hard, and not all the elements of the exam can be fully prepared for; however, even in the areas of the country where they now claim the exams cannot be 'tutored'™, there are still many tools that you can give your children to help their preparation - and one of those tools is a knowledge of the different aspects of Figurative Language. Introducing metaphors and similes, personification and pathetic fallacy, alliteration, idioms, onomatopoeia, hyperbole and oxymoron in a way that they will be easily remembered, this book is a great introduction to Figurative Language for children from Upper Key Stage 2 to the end of Key Stage 3 (9 to 14 year olds)

Chinas national economic security. environmental policy simulation analysis(Chinese Edition), Canada the Land (Lands, Peoples, and Cultures), Problem-Based Immunology, The 2007 Import and Export Market for Provitamins and Vitamins Excluding Medicaments in Australia, A beginners look at woodcarving with creative power tools, The Life of J.-K.Huysmans (Dark Masters), Sunflowers 2014 Wall Calendar, Home Gunsmithing Digest, Democracy and U.S. Policy in Latin America during the Truman Years,
