

This up-to-date electronic book on CD-ROM provides the best collection available anywhere of official Federal government information and documents on the subject of acupuncture. This CD-ROM uses next-generation search technology that allows complete indexing and makes all files on the disc fully searchable. For patients, practical information is provided in clearly written patient education documents. For medical professionals, doctor reference tools and texts have detailed technical information and clinical background material. Acupuncture is one of the oldest, most commonly used medical procedures in the world. Originating in China more than 2,000 years ago, acupuncture began to become better known in the United States in 1971, when New York Times reporter James Reston wrote about how doctors in China used needles to ease his abdominal pain after surgery. A report from a Consensus Development Conference on Acupuncture held at the National Institutes of Health (NIH) in 1997 stated that acupuncture is being widely practiced - by thousands of physicians, dentists, acupuncturists, and other practitioners - for relief or prevention of pain and for various other health conditions.

This thoroughly researched collection presents vital information from many authoritative sources: Food and Drug Administration (FDA), Centers for Disease Control (CDC), National Institutes of Health (NIH), and the National Center for Complementary and Alternative Medicine (NCCAM). In addition to the comprehensive topic-specific coverage, as a bonus we have included an encyclopedic collection of general medical and health documents, with extensive material from the CDC, FDA, and NIH on hundreds of diseases. Since navigating the Internet to find additional non-governmental medical information can be confusing, we've also provided our exclusive Guide to Leading Medical Websites with updated links to 73 of the best sites for medical information! By using weblinks on the CD-ROM, you can quickly check for the latest clinical updates directly from the government. This CD-ROM has over 38,000 pages reproduced using Adobe Acrobat PDF software and Reader software is included. Advanced search and indexing features are built into our reproduction, providing a complete full-text index. This enables the user to search all the files on the disk at one time for words or phrases using just one search command! The Acrobat cataloging technology adds enormous value and uncommon functionality to this impressive collection of government documents and material. There is no other reference that is as fast, convenient, comprehensive, and portable!

Our CD-ROMs are privately-compiled collections of official public domain U.S. government files and documents - they are not produced by the federal government. They are designed to provide a convenient user-friendly reference work, utilizing the benefits of the Acrobat format to uniformly present thousands of pages that can be rapidly reviewed or printed without untold hours of tedious searching and downloading. This book-on-a-disc makes a superb reference work and educational tool for patients and their families, physicians, and other medical professionals. (Information on this CD-ROM is not a substitute for professional medical advice; of course, readers are urged to consult with a professional health care provider for any suspected illness.)

The World of Leonardo da Vinci: Man of Science, Engineer and Dreamer of Flight., The Worlds Greatest Speeches: A Collection of Some of the Most Famous and Motivational Speeches from Around the World, Educations in Ethnic Violence: Identity, Educational Bubbles, and Resource Mobilization, Roosevelt: Young Teddy Roosevelts Incredible Adventures in the Dakota Badlands (Teddy Roosevelt Kindle Book 1), Bewerbungcoaching: Professionelle Unterstutzung bei der beruflichen (Neu-) Orientierung durch systemisches Denken (German Edition), Marlo Mouse and the Birthday Surprise, Great Migrations: Whales, Wildebeests, Butterflies, Elephants, and Other Amazing Animals on the Move (National Geographic Kids), The First Horseman (Jim Evans), If You Cant Trust Your Mother, Whom
