

In # 4 I show how the solar system formed as nature allow us to read the history of the solar system. When one applies the four laws reflecting singularity that forms gravity it is so easy to read as reading a comic book. I found singularity. I found where to find singularity. I found singularity is not an idea by which science hides what they dont know but singularity controls every aspect of gravity and gravity controls every aspect of the Universe. In that I found four laws by which the Universe forms gravity. I managed to prove and explain four cosmic keys that build the Universe namely: The Titius Bode Law; The Lagrangian Points, The Roche limit and The Coanda Effect. Everything in nature in the Universe applies these phenomena in how space forms. The Titius Bode Law: forms the solar planetary layout and annihilates Newtonian dogma that the solar system forms in any way by applying the mass of the planets. The Lagrangian Points: holds material in position to form the rings around planets. The Roche limit removes the idea that stars and planets can collide or crash into each other. This explains amongst so many other things how the Tunguska event took place. The Coanda Effect is a ratio that movement forms between space and material. It forms the Universe in as much as forming stars in spheres and forming galactica in circles. Should you never have heard of these laws applying as gravity forms then also read why there is so little said about these laws?

With this said I managed to prove and explain four cosmic keys that build the Universe namely: The Titius Bode Law; The Lagrangian Points, The Roche limit and Coanda Effect Everything in nature in the Universe applies these phenomena in how space forms. It forms the Universe in as much as forming stars in spheres and forming galactica in circles. Science is blamed for many different conspiracies but those all are vague and argumentative. We all know there is something wrong within what science is and what science says. Someone is somehow hiding something somewhere and no one puts a finger on the button. All these are there to protect the mother conspiracy from getting leaked. You area bout to read the mother of all the conspiracies in science, which is why science applies mind control by processing thought control. I prove that there is a mother conspiracy in place. Every conspiracy ever linked to science is in place to protect this conspiracy from becoming known. The mother conspiracy is in place so that students are brainwashed by instigating mind control on students through enforcing accepting dogma. I prove what I accuse science of. I introduce a new cosmic vision with the Universe singularity that forms every known space.

Then within four objective years there will have been an infinite number of generations, One might think that the singularity would be of great interest to academic . My main aims in writing the article are to subject some of these themes exploring and perhaps strengthening the

foundations on which these ideas rest.

In Wallace Stevens's poem *The Course of a Particular*, the cry of win-try leaves provokes them to savor a literary work not in relation to other writing but in itself. The expiry of meaning in singularity—the final finding that concerns no one at all—can be troubled into opening an avenue to ethical particularity.
