

This work examines the interaction of the liver and the kidney. There are a number of diseases, such as ascites, renal dysfunction, cirrhosis, and hypertension, where both organs are involved. In addition, both organs are very important in regulating extra-cellular fluid volume, and how they work together or don't work together can affect circulation.

You're Not My Best Friend Anymore, The Old Farmers Almanac 2001, 4 Pieces, Op. 4: Piano Solo, Driving Behaviour of Intercity Bus Drivers: The Impact of Passengers, Memorial Respecting the Right Which Notaries Have Always Enjoyed to Conduct the Non-Contentious Proceedings Mentioned in the Third Part of the Code of Civil Procedure (Classic Reprint), Economic Geology: Or, Geology in Its Relations to the Arts and Manufactures, Evolutionary Metaphysics: The Development of Peirce's Theory of Categories, Fluid Mechanics, History of civilization in England (v.2), Manga Action Figures (How to Draw),
