

William Shakespeare, Andrew Marvell, Voltaire, William Blake, Jane Austen, T.S. Eliot, and Earnest Hemingway should be ashamed of themselves. In their books and poems and plays many ending disappoint us. In Taming of the Shrew, surely a woman like Kate would have not been quite so compliant. And Marvell would not been so indulgent to the reluctance of his coy mistress. Voltaire must have been quite tired when he finished Candide, for his ending drifted off into futility. Blakes could have faced his moral problems better in Tyger. The last chapter of Pride and Prejudice failed to describe Elizabeths and Darcys wedding night. T.S. Eliots Prufrock might have been more optimistic as he faced the future. And Hemingways Old Man never told us about wooing his wife, and about their life together. This book rectifies all these errors, and provides superior conclusions to their works. Probably they are all turning in their graves
