

This is a true story of how one woman set out to find the answers to life's eternal questions. Thirty years later, she has found the answers and they are not what most people would believe! TRUITYS journey took her to the depths of spirituality, to study various religions, psychology and philosophies. The truth she found ultimately is so simple, she wonders at why more people haven't realised that there are no limits to what we can manifest with our lives, and our lives are ultimately the result of how our thinking limits our choices. A dynamic journey of a woman who married at 16 had 3 children by 21, suffered cancer and near death experience by the age of 26. Her life is one of continually challenging the status quo in order to inspire others to develop the courage to find their truth. Book of Choices is an inspiring, soul stirring, empowering, must read for anyone who has ever felt alone, lost and lonely.
