

A prophetic thriller from the author of Cuba Strait, Cobraville follows a covert CIA mission deep in the jungles of the Philippines during a savage civil war. Cole Langan's five-man unit -- in country to repair what they have been led to believe is a vital NSA surveillance monitor -- instead finds itself caught up in a spiraling vortex of lies, spies, and traitors. When the unit collides -- disastrously -- with UN peacekeepers, the surviving CIA agents may face war-crimes trial at the International Criminal Court. On the other side of the Earth, Cole's father, Senator Drew Langan, tries desperately to identify a shadowy group behind the betrayal of his son's CIA unit. An elusive German businessman leads Drew and his femme fatale bodyguard down a rabbit hole of intrigue and corruption that leads all the way to the highest levels of the United Nations. Shot through with Stroud's grimly mordant sense of humor and painstakingly researched, Cobraville cuts deep into the harrowing reality of America's secret wars, in a cautionary book that ought to be read by every spymaster in D.C. and every apparatchik at the UN.
