

Over 4,000 of the most frequently used terms associated with the musculoskeletal system, with definitions written in non-technical language. Plus a separate section of 500 abbreviations and acronyms. A time-saving must for busy people. For quick understanding, most entry terms immediately followed by a defining category (e.g., surgical procedure, pathologic condition). Find words you can't spell! Commonly misspelled words alphabetized with the main entries (example: Becks Disease. Incorrect spelling of Boecks Disease). Mini-definitions incorporated within definitions to avoid cross-referencing and needless searching (example: ...just below the acetabulum (hip socket)). Two-word entries listed in both locations, for quickly finding a term (for example, femoral anteversion is listed under anteversion and under femoral).

Code of federal regulations, Case-Based Reasoning: A Concise Introduction (Synthesis Lectures on Artificial Intelligence and Machine Learning), «Wir, die Volker (...)» - Strukturwandel in der Weltorganisation: Konferenzband aus Anlass des 60-jährigen Bestehens der Vereinten Nationen vom ... of the United Nations) (German Edition), The Jewish Encyclopedia: A Descriptive Record of the History, Religion, Literature, and Customs of the Jewish People from the Earliest Times to the Present Day, Vol. 9 (Classic Reprint), The Phantom of the Subway / the Temple of the Ruby Fire: Library Edition (Geronimo Stilton), The Irrigation Age, Vol. 13 (Classic Reprint), The Blessing of Life: An Introduction to Catholic Bioethics, Establishments Man,
