

Wasps can lay their eggs inside other insects. Cicadas can live for 17 years underground. Some butterflies can taste with their feet. These are just some of the fascinating facts readers discover about insects as they learn to draw these colorful creatures. Science content is presented alongside step-by-step drawing instructions to make learning about both nature and art fun! Aspiring artists explore the tools and techniques used to create both lifelike and cartoon insects, and colorful illustrations give them an example of what the finished products could look like.
