

An exciting new subject for woodcarvers is shared by one of its foremost artists. James Fliger introduces fish carving by presenting four projects: the rainbow trout, the bluegill sunfish, the black crappie, and channel catfish. A graphic artist by profession, Jim has created beautiful patterns and drawings to help the carver. The book is further illustrated with black-and-white photographs showing the carving techniques in the step-by-step fashion that is so helpful to wood carvers. For the all-important painting steps, color graphics are used with photographs to give the readers an accurate view. Additionally, color photographs from nature and a portfolio of size-winning fish carving is presented.
