

In this volume Robin Barrow traces ancient education from the time of Homeric poems to the age of St. Augustine. Without minimising differences between educational practice of particular periods or places, the author stresses similarities and common origins and relates ancient ideas on education to our own. He uses the evidence of a wide range of ancient authors who are extensively quoted.

Quality Through Access, Access With Quality: The New Imperative for Higher Education, Fundamentals of Electrochemical Science, Courtiers and Cannibals, Angels and Amazons, A Will to Survive, Introduction to Engineering Design Book 2 Weighing Machines, The Jacobin Republic Under Fire: The Federalist Revolt in the French Revolution, Considerations on Representative Government,
