

Evolved Publishing brings you the seventh of the Bird Brain Books by Emlyn Chand, Izzy the Inventor. This children's picture book, with full color illustrations by artist Noelle Giffin, is for kids 4 to 8 years old. Izzy is a clumsy young prehistoric bird still trying to figure out the whole flying thing. She grows tired of the other archaeopteryxes laughing at her, and decides to go practice near the caves where the people live. The people laugh at first too, but soon they notice that each of Izzy's failed flights leads to a wonderful new invention or discovery. Cave paintings, fire, even the wheel—all are results of Izzy's clumsiness coupled with her determination to fly. Will Izzy ever learn to fly like the other birds, or will she decide it's okay to be different? There's only one way to find out: join Izzy in her prehistoric adventure in this edition of the color-illustrated Bird Brain Books series for children 4-8 years old.
