

Because of many advances in medicine and biotechnology, an increasing number of individuals are surviving into old age, and we are now challenged to apply sophisticated medical knowledge to the care of the elderly citizen. In nephrology, individuals older than 65 are the fastest-growing group of patients requiring dialysis. Similarly, in increasing numbers, elderly persons present themselves with renal complaints to their family doctor, the geriatrician or the nephrologist. In August 1998, with the financial support of the John A. Hartford Foundation, leaders in geriatrics, nephrology and urology met in Jasper, Alberta, for one week to discuss their areas of special knowledge and to learn from each other. Geriatricians learned from nephrologists, nephrologists learned from geriatricians, and both came to see that they had much in common. All participants discovered a common interest, challenge and commitment, namely, to provide the best renal care to a progressively aging population and to teach their fellows the principles of the other collaborating specialties. This book contains all the papers presented at this meeting and also the text of group discussions on Training and Education, Special Clinical Problems in Geriatric Patients, and Recommendations in Basic and Clinical Research. Nephrology and Geriatrics Integrated will prove useful to both nephrologists and geriatricians in their efforts to manage the renal complaints of the elderly, who come to them in increasing numbers.

Flies for Sea-Trout - Rivers (Proven Patterns), Democracy Delayed: The Case of Castros Cuba, The O Line Mystery Shorts Book 2, Viva Modern Interpretations a Farewell to Arms, Knitting Patern - Simple Teddy (knitting with kitten Book 1), Human Chromosomes: Structure, Behavior, Effects, The Minotaurs Handmaiden, Dostoevsky (Great Books of the Western World Volume 52 ), Historical Researches Into The Politics, Intercourse, And Trade Of The Principal Nations Of Antiquity, Volume 2..., Gypsies Greed & Politics,

Keywords: geriatrics; nephrology; multidisciplinary working; geriatric comprehensive assessment focuses on functional status, cognitive.

At least 50 percent of the nephrology patient population are older adults with a wide range As with all geriatric patients, a comprehensive geriatric assessment . Supportive Care: Integration of Patient-Centered Kidney Care to Manage Symptoms and Geriatric Syndromes. Sara N. Davison and Sarbjit. The goal of these retreats is to integrate geriatrics into the subspecialties of internal medicine. The basic belief of the sponsors is that the art and science of.

Original ArticlesGeriatric Nephrology. You have .. Systematic comprehensive geriatric assessment in elderly patients on chronic dialysis: A. Kidneys, like other organs, age, and kidney disease in the aged is a prime example. Comprehensive geriatric assessment for older adults admitted to hospital.

Acute kidney injury (AKI) is particularly common among the elderly [1]. care in a Northern California integrated health care delivery system. End-stage renal disease patients have complex clinical needs and face unique Integrated kidney care and innovation in the ESCOs. We conducted a systematic integrative review of the literature to assess In dialysis-dependent end-stage renal disease (ESRD) patients, the risk of .. of nebivolol versus placebo in elderly patients with HF (age > 70). Chronic kidney disease (CKD) is often associated with muscle atrophy, of the integrated Divisions of Cognitive and Motor Aging (Neurology) and Geriatrics.
