

One big, bad wolf leads to two who are oh so good. Angela thinks she's having some rotten luck when a flat tire leaves her stranded on a dark, secluded road out in the middle of nowhere, but things are looking up when two hot and sexy guys come to her rescue. It doesn't hurt that one of the guys is the same one she was drooling over earlier in the evening during a book signing. Before she has an opportunity to see where things might lead, she finds herself chased through the woods by a beast that could've come straight from the pages of one of the werewolf books she writes. Fortunately, her two saviors arrive just in the nick of time again, and Angela knows the perfect way to repay them for their heroic deeds. Hunter and Cory are members of the Gemini pack. It will take a special woman to handle the two of them together, and feisty, curvy Angela might be that woman. Before the sun comes up, Angela will learn that reality is wilder than any fiction she ever imagined as Cory and Hunter show her the pleasure that two shifters can bring. Shadow Glen Tales are hot and sexy short stories that do not have to be read in any particular order and do not contain cliffhanger endings. Readers note: Contains adult language and sizzling sexual situations.
