

American voters say they want to hear more about the issues and less about partisan politics. An unusually wide-open presidential race presents a unique opening for frank discussion and innovative solutions to pressing policy challenges. Opportunity 08 takes advantage of this political space to help presidential candidates, political observers, and the informed public focus on critical issues facing the nation. Opportunity 08 tackles a broad range of issues, organized under three categories: Our World, Our Society, and Our Prosperity. On the latter, for example, Brookings scholar Isabel Sawhill joins former Congressmen Bill Frenzel (R) and Charles Stenholm (D) and longtime budget counsel Bill Hoagland to provide a clear picture of the American budget deficit situation and what should be done about it. Sawhill also collaborates with Ron Haskins on a plan to provide greater support for education, work, and marriage. Hugh Price puts forth a strategy (and price tag) for boosting academic achievement among American schoolchildren. Brookings scholar Henry Aaron and Harvard professor Joseph Newhouse describe Americas health care predicament and discuss options for expanding coverage and reducing costs. Mark McClellan, until recently the administrator of Medicare and Medicaid, takes another angle on the same subject. In the realm of international affairs, Jeffrey Bader and Richard Bush as well as former Bush administration official Michael Green discuss how best to deal with China. Jeremy Shapiro calls for a more analytic and threat-based approach to homeland security, arguing that many proposals are too ambitious and costly. On the Middle East, Martin Indyk and Tamara Cofman Wittes emphasize the need for a moderate coalition that will counter Irans ambitions in the region, while also discussing political reform in Arab states and the Arab-Israeli peace process. Peter Rodman, until recently a Bush administration Pentagon official, also addresses the challenge posed by a radical Iran. These are just a few of the critical issues and renowned authors included in this timely book. Insightful, informed, and independent, Opportunity 08 truly is Brookings at its best.
