

This fully-revised, portable Second Edition provides pharmacy students with a unique reference source for their introductory clerkship and is the only clinical clerkship manual designed specifically for pharmacy students. This text serves two purposes: it eases the transition from classroom to experiential training (students learn what to expect from the patient care setting and what is expected from them); and it provides quick reference material needed for day-to-day clinical work. Features include: two appendices, covering medical abbreviations and terms/notations, and common anatomic terms; illustrated hints, questions and information on drugs, equipment, and procedures; and new chapters on Overview of Health Care Systems, Home Diagnostic Tests, Documentation of Pharmacy Practice, Over-the-Counter Products, Patient Counseling, Public Health Practices, and Approaches to Evaluating Drug-Related Problems.

Why Not Us?: A Chronology of the Seattle Seahawks First Super Bowl Championship Season, Seeds of Empire: Celtic Empire (Volume 1), Manter and Gatzs Essentials of Clinical Neuroanatomy and Neurophysiology, 10th Edition, 500 Questions and Answers on the Black Presence in the Bible, Nine Miles: Two Winters of Anti-road Protest, Oberflächenbehandlung · Abrasivverschleiß (Tribologie: Reibung, Verschleiß, Schmierung) (Volume 9) (German Edition), The Distribution of Loads on Rivets Connecting a Plate to a Beam Under Transverse Loads, Frogs and Toads (Whats the Difference?),
