

Edgar Allan Poe (1809--1849) has long occupied the position of literary outsider. Dismissed as unrepresentative of the main currents of antebellum culture, Poe commented incisively -- in fiction and nonfiction -- on nationalism, science, materialism, popular taste, and cultural ideology. Opposing the pressure to write nationalistic American tales or from a restricted New England perspective, he produced a body of work held in greater international esteem than that of any of his U.S. contemporaries. In *Poe and the Remapping of Antebellum Print Culture*, scholars explore Poes anti-nationalistic Americanism as they redefine the outlines of antebellum print culture and challenge ideas that situate Poe at the margins of national thought and cultural activity. The contributors offer fresh perspectives on an often-maligned author, including essays on Poes preoccupation with celebrity, his fascination with metropolitan crime and mystery, his impact as an observer of racial fear, his role as an eccentric cultural icon, and his fluctuating reputation in our own era. They also argue for new digital approaches that facilitate remapping of print culture. Contributors: Anna Brickhouse, Betsy Erkkila, Jennifer Rae Greeson, Leon Jackson, J. Gerald Kennedy, Maurice S. Lee, Jerome McGann, Scott Peeples, Leland S. Person, and Eliza Richards
