

Rapid Reference to HRT will provide the reader with authoritative and accessible information from a clinical expert in the field, to assist with treatment decisions. Each title in the new Rapid Reference series provides standard core content (epidemiology - management/ therapy) combined with the additional information, such as FAQs and patient organisations, needed by the GP to provide effective patient care. They also include drugs listings, clinical trials, information on future developments and web site listings to keep the reader up to speed with new developments and to extend their knowledge of the disease area. Expert information succinctly written for ease of use. Abundant use of bulleted lists and short tables, for quick access to comparative information. Presents evidence-based sources for practice where available, either through research or best-practice guidelines. Frequently Asked Questions chapter helps practitioners prepare for patient visits and provide better patient care. Drugs appendix lists available drugs, with contraindications and side effects. Useful addresses and websites appendix provide additional resources for both the physician and patient.
