

Excerpt from Aeschines and Demosthenes: A New Translation Another translation of the Orations on the Crown is here presented. Many English translations already exist, but an attempt is now made to unite sufficient literal adherence to the original with what may be called the forensic tone of the occasion. This version is not incumbered with notes, nor prefaced with an elaborate introduction. Attention is simply called to the political condition of Greece, and to the principal circumstances of the trial, and a slight comparison of the two orations is made. The reader who desires more will find all needed information in the introduction to Kennedys translation of the Oration of Demosthenes, and in the editions of the Greek text of that oration of T. K. Arnold and Arthur Holmes. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
