

William Perkins (1558-1602) was a Calvinist minister and theologian who was one of the foremost leaders of the Puritan movement in the Church of England. His "Works" were originally published in three large volumes spanning thousands of pages. However, he wrote a number of individual treatises that are exceedingly biblically, spiritual and helpful for Christians today. The works of William Perkins have not been published until now in these individual treatises. There are few problems in the contemporary church today that can match terrible preaching, and the poor exposition of the word of God. Perkins had much the same problem in his own day and in his own city. In this volume, written specially for ministers, he provides a foundation of bible truths to teach the manner in which ministers may preach effectively and faithfully to their congregations, as well as showing Christians how they may read their bible with profit and understanding. This is a classic work that should be at the side of every preacher and every student of the bible to be read again and again. This work is not a scan or facsimile and has been updated to be made easy to read. It also has an active table of contents.
