

In the mid-1990s, only two hip hop labels truly matter: Shadowlands in the East and Eclipse in the West, each run by headstrong kings whose battles for total cultural dominance have been spiraling out of control. As leader of Shadowlands, Caspian is proud of the massive success of his beloved protege Howie Blocks, but cannot ignore how Howie's dangerous fascination with a fellow rapper is ruining his marriage to the beautiful siren Alisha. Meanwhile, Eclipse boss Heronimus recruits the poetic yet jailed genius Robespierre Max, believing him to be the secret weapon he needs to regain focus on the West. But after being bailed out, a once-neutral Robespierre soon realizes that he is forcefully chained to his new allies, slowly getting dragged into the rivalry's twisted web of ambition, betrayal, and chaos. Told through alternating voices from both coasts, this mythical pocket-opera chronicles the rise and fall of a group of extraordinary artists during one of the most legendary times in musical history, a gilded bygone era in which royals ruled over record companies, knights carried glocks, loyalty was akin to religion, and simple mistakes could lead to tragic explosions.
