

THE EYE OF THE UNIVERSE™. A new book is born to clear many of the confusions in the field of spirituality. THATH TWAM ASI / I AM THAT / AHAM BRAHMA ASMI (all these are the same in essence): this is the ultimate in metaphysics and spirituality. And this book is a clear, brilliant exposition of this idea to make it intelligible. It introduces you to your Reality as the single eternal entity, birthless and deathless, unchallenged by anything, facing no threat from anywhere, not under the watchful eye of any super-being, not governed by anyone, standing on your own foundation as Awareness, Consciousness, Cosmic Consciousness (Brahmam). You are the seer of the world, the eye of the world; you lend reality to the world by cognizing the existence of the world. You are AWARENESS eternal, a far greater reality than the universe. If one has the intention of reading only one book in life, it should be this, because it opens up in front of you a highway to self-realisation, an escape route from further births and deaths. The choice is very serious, involving your eternal existence; one as a single entity, peaceful and unchallenged, and the other as a limited entity (in jeeva bhaavam) in suffering life after life eternally. All other books tell you stories about this world and the present body; and keep you blinded about your eternity. And this book also holds a great contribution towards lasting world peace by showing what religion is, intelligently. Your own awareness is Brahmam, nothing different, nothing separate, nothing bigger or smaller, just the same. This book makes this clear with the help of Upanishads and with the words used in the Brahma Vidya meditation. The whole world is flooded with spiritual pauperity. Nothing worthwhile is seen anywhere, with the exception of some Upanishads. And whatever brilliant guidance offered by these Upanishads are also misinterpreted by teachers steeped in misconceptions, with hopeless incapacity to see the reality. THE EYE OF THE UNIVERSE™ holds out a hope to humanity in this situation. Its vision is clear. It sees the Upanishads in their correct sense. Have a look and see how the Four Great Sayings (mahavakya-s) become easily acceptable even to the sharpest of intellects. It does not call for any blind belief. It perfectly appeals to the intellect, looked from the stand-point of this book. Place YOUR OWN AWARENESS in the place of THE SUPER POWER presented to you so far and see how well it fits! This book establishes some acceptable theories; while shaking up some questionable beliefs. When you try to understand the Great Saying, Aham Brahma smi™ (I am Brahmam), you stumble on a mis-match. The age-old belief that Brahmam is omniscient and omnipotent comes in the way. THE EYE OF THE UNIVERSE clears this block, with the help of Upanishads. In a torrential rain, someone stood on the flooded road and tried to stop the vehicles. No-one stopped. At last someone stopped, and asked with a frown: "What do you want?" "Don't proceed; the bridge ahead is washed off" was the reply. The mission of this book is infinitely more serious than this. It tries to save you from the cycle of births and deaths, suffering in 8.4 million casts (moulds/types) of bodies eternally. Failure to utilise the present human body to slip out of this cycle amounts to spiritual suicide. Pay heed to the warning: "Don't proceed; the bridge is washed off". Change the course.
