

Writing a romance novel is not an easy task. With the industry changing faster than we can sometimes put idea to paper, The Millennium Phrase Book is just the thing to give your novel the edge, keep you in the competition. This extensive guide has thousands of commonly used descriptive phrases-also known as tags- that can make the pages of your novel as vivid, colorful and dramatic as you can create. You are limited only by the boundaries you set for yourself. You can make your heroine pulse with life, and give the reader a reason to finish the book. For example: Without tags: His gaze settled on her and she felt as if shed been touched. With tags: She felt the heat of his dark gaze as it settled on her and slowly, deliberately moved over her curves, leaving a trail of burning need in its wake. Inside this exhaustive treasury youll find fifteen wonderful categories intended for the hard working romance novelist, neatly organized, with many sub-sections ready to give your imagination a jolt. Of course there are wide-ranging physical descriptions for your Hero/Heroine, Body Movements, Facial Expressions, Voice, Emotions and, of course-Sex. Other Categories include-Emotional/Physical Pain, The Five Senses, Other Worldly, Nature and Battle Scenes. Many categories include extensive in-depth detail. Youll also find numerous hard to find facts. So flip through the pages and let your imagination soar; there is no limit to what you can create.
