

Why would Darwin and his outdated theory from the age of the Steam Boat matter anymore? On the other hand, why would anyone dare to question Darwin and the powers that be in academia and the media who still cling to this God-rejecting belief system from the 1850s? Who is right? Is it really reasonable to buy into evolution while faith in a Creator God is unreasonable? Why did a Christian Seminary student like Charles Darwin turn from the Church, turn his back on Christianity and pen the Origin of Species and the Descent of Man? For that matter why do people turn their backs on God and the Church today? I assembled this collection of reason-based questions of the validity of this theory because I want to give you something rare and valuable. In fact, it is priceless. The question is: Will you accept it as wisdom or folly? I challenge you to lay aside all your prejudices for time enough to read and consider what I have to give you.
